Major Kenneth Pepperell Budd, who Major Kenneth Pepperell Budd, who was severely wounded, was a member of the firm of Iselin & Co., drygoods commission merchants, when he went to the Plattsburg Training Camp. He received a commission as major while there, but refused it for a captaincy and was assigned to Camp Upton, where he was promoted to the rank of major before the division sailed. Lincoln Cromwell, one of the partners, recently received a letter from him which he said he had been gassed. Major Budd was graduated from Hartard in 1902. He is a member of the Racquet, Harvard and Knickerbocker clubs.

Private James A. O'Hare, who was Filled in action, is the son of Police Sergeant John J. O'Hare, 1458 Bed-ford Avenue, Brooklyn, and was Field Artillery. A brother, Joseph F. Field Artillery. A brother, Joseph F., is in the same regiment, and wrote his mother that he visited James's grave daily. James O'Hare was twenty-two years old, and enlisted in the 53d United States Infantry in 1915. He saw service at the border and was transferred to the artillery regiment while it was at Camp Wadsworth. A colemn requiem mass will be said for him to-morrow morning at St. Theresa's Roman Catholic Church, Brookiyn.

Agents from the Department of Justice, with a score of detectives under Captain Underhill working with them, searched the city yesterday for the plant from which the anti-draft posters which suddenly appeared in Harlem on Tuesday night were turned out. Although no arrests were made, the povernment officers declared last night they had a pretty definite idea as to who was responsible for the posters, and it is expected that several arrests will follow soon.

Meanwhile every policeman in the city was ordered yesterday to take to his station house any of the posters he found anywhere on his beat. By last night several thousand had been gathered in.

The American Line steamship St.

Paul, which turned over on her side ist April while being warped into her per, was refloated on even keel yester-bay, and will soon be placed in dry-cleck for repairs.

Owing to the size of the vessel and has harrow space between piers, the ion of righting her was most difficult. Attempts to raise the vessel by pontage and tugs failed. The feat was complished by scaling all openings, hearn stanchions on the exposed side and connecting these by cables with teetre winches, which pulled the ship appright while pumps emptied her of water.

WASHINGTON, Sept. 11.—Former Representative Lindbergh, of Minne-sota, wid not receive as appointment as publicity promoter for the Priori-ties Commission of the War Industries ties Commission of the War Industries Board. Chairman Bernard Baruch made an announcement to that effect to-day. The reason given was that it had been discovered that the appointment would cause general dissatisfaction, In view of this circumstance, Mr. Baruch thought Mr. Lindbergh would agree that his appointment yould not be wise. 'It is certain that Lindbergh's appointment was definitely decided upon and would have been made had not the news got out before it was too late.

when the people of Minnesota heard that Lindbergh, who was recently defeated as the Non-Partisan League candidate for the Republican nomination for Governor in that state, was likely to be appointed to an important position in the War Industries Board they were accessed. were amazed, and some of them pro-ceeded promptly to acquaint Mr Bar-uch with the record of Mr. Lindbergh in regard to the war. The record spoke for itself. It was apparent that no man with such a record could success-fully discharge the duties of the office.

Chauffeurs Must Go Into Essential Work Collegiate Sium. Military

That real progress is being made in the government's effort to turn the man-power of the country from unessential pursuits into the channels of essential industry, was made clear at a dinner of examiners and clerks of the New York State Branch of the United States Employment Service, held at the Holland House last night. Your Government Wants Airplane Mechanics-NOW

The thousands of bombing planes, which are needed to win the war, can never do their work unless tens of thousands of Airplane Mechanics are rapidly trained. And without more Mechanics, the huge Airplane Factories cannot begin to supply planes enough. There are numberless openings in the Service and in the factories for you.

You can be trained at the splendidly equipped
